BUILT TO PERFECTION

A Hamptons home really stands out when a strong architect is behind it. So how do you find the firm that's the best fit? Read this chapter to find out the right questions to ask, which materials work best for you, and options that suit your living requirements. In other words, how to put the "A" in architecture.

BRADY DESIGN

Brady Design was established in 1989 by registered architect Brian P. Brady. Offering both residential architecture and interior design services, Brady Design's expertise lies in creating traditional, classic architecture and designing comfortable, sophisticated, classic interiors. Based in Southampton, New York, Brady Design works on projects throughout the country including the Hamptons, Palm Beach and Manhattan.

Brady is a member of the Institute for Classical Architecture and Classic America and an avid supporter of the Southampton Youth Services for which he designed the Elmalleh-Stanton Square facility. Presently, Brady serves on the board of the Hamptons Designer Showhouse and has served on the Architecture Review Board for the Village of Southampton, New York, for the past eight years.
